Rule Changes

Sergio Cortez

SAN DIEGO COUNTY
WRESTLING OFFICIAL ASSOCIATION

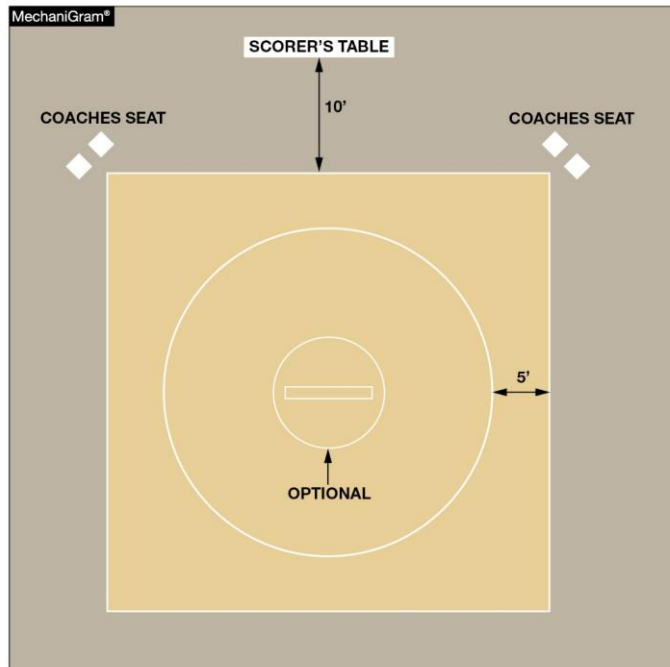

Presented by
Sergio Cortez
September 24,
2024

2022-2024 Rule Changes

- Optional 10' Circle Rule 2-1-3
 - Points of contact
rules 5-10, 5-15-1, 5-15-2c, 5-15-3, 5-18, 5-22-1, 5-22-2, 5-25-1, 5-25-3, 6-4-1
 - Near-fall
rules 5-11-2g, 5-11-2h, 5-11-3, 9-1-5
 - Technical fall rule 5-11-4
 - Signal chart Referee's time-out
 - Takedown
rule 9-1-2, summary of scoring
-

Rule 2-1-3 mat

The 10-foot circle at the center of the mat is now optional.

Optional 10' circle rule 2-1-3

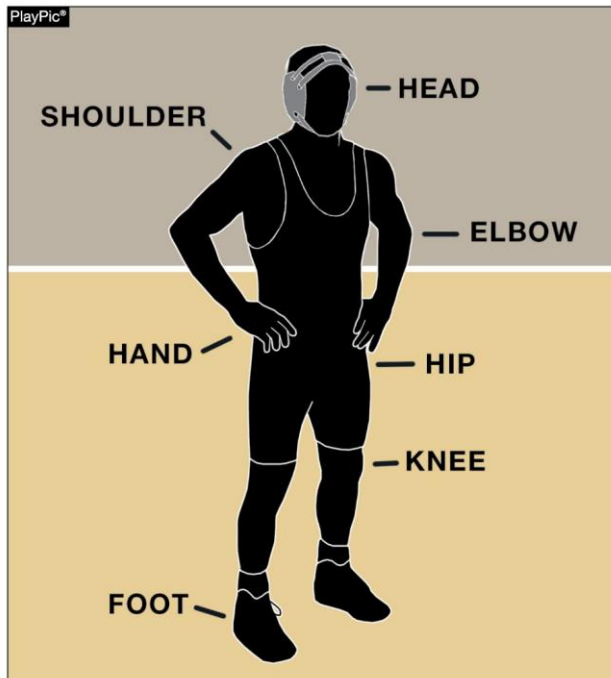

ART. 3 . . . The wrestling area shall be marked on the mat by painted lines, 2 inches wide, which are inbounds. At the center of the mat there ~~shall be~~ may be a an optional 10-foot circle, indicated by a 2-inch line. When the area enclosed by the optional 10-foot circle and the inbounds area of the mat are of contrasting colors, the 2-inch line may be omitted.

Rationale:

The starting lines of a mat indicate the center of the mat and the 10-foot circle is not needed. With the new mat designs that have a large mascot or logos, it gives a refreshing look to the wrestling mats. Wrestlers and officials know where the center of the mat is located without the 10-foot circle being present.

Points of contact

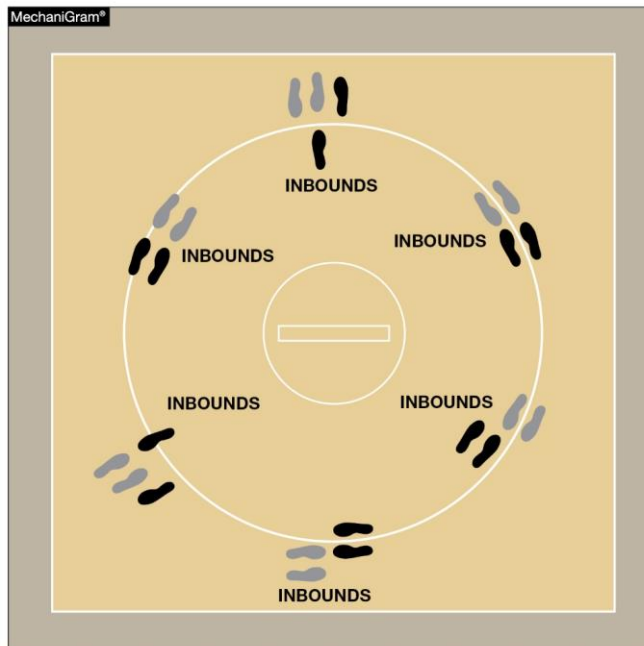

rules 5-10, 5-15-1, 5-15-2c, 5-15-3, 5-18, 5-22-1, 5-22-2, 5-25-1, 5-25-3, 6-4-1

Only one point of contact must be inbounds (inside or on the boundary lines) in order for wrestling to continue. Points of contact include the head, shoulder, elbow, hand, hip, knee and foot.

Points of contact

rules 5-10, 5-15-1, 5-15-2c, 5-15-3, 5-18, 5-22-1, 5-22-2, 5-25-1, 5-25-3, 6-4-1

Only one point of contact must be inbounds in order for wrestling to continue.

One point of contact rule 5-10

ART. 10 . . . An escape is when the defensive wrestler gains a neutral position and the opponent has lost control, beyond reaction time, while one ~~a total of two supporting points~~ point of contact of either wrestler is ~~are~~ inbounds. ~~The total of two supporting points could be two supporting points of one wrestler or one supporting point of each wrestler.~~ If there is no action at the edge of the mat, the referee shall stop the match.

One point of contact rule 5-15-1

ART. 1 . . . Contestants are considered to be inbounds if one ~~a total of two point of contact~~ of either wrestler is inside or on the boundary lines. ~~The total of two supporting points could be two supporting points of one wrestler or one supporting point of each wrestler that are inside or on the boundary lines.~~ (Photo 11)

Rationale:

Same.

One point of contact rule 6-4-1

ART. 1 . . . When there ~~are~~ is no longer a ~~total of two supporting point of contact points~~ of either wrestler on or inside the boundary line, wrestling shall be stopped and wrestlers returned to the center of the mat and started according to the position of each at the time they went out of bounds. ~~The total of two supporting points could be two supporting points of one wrestler or one supporting point of each wrestler inside or on the boundary line.~~

Near-fall

rules 5-11-2g, 5-11-2h, 5-11-3, 9-1.5

Depending on how long criteria is met, a wrestler may score two, three, four or five points for a near-fall.

Near-fall scoring symbols

All symbols remain the same except the following:

N₂ Near-Fall 2 seconds

N₃ Near-fall 3 seconds

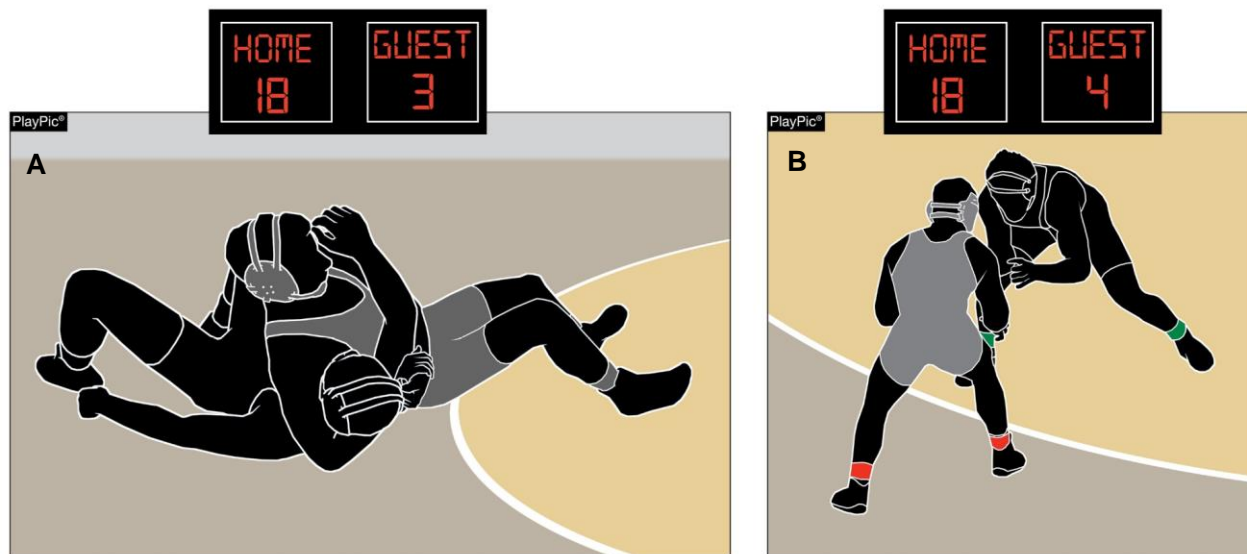

N₄ Near-fall 4 seconds

N₅ Near-fall (as a result of injury, indication of injury or bleeding occurs after four-points near-fall has been earned)

Rationale:

Same.

Technical fall rule 5-11-4

In PlayPic A, the offensive wrestler has met near-fall criteria to take a 15-point lead. When the criteria is no longer met, as in PlayPic B, the match ends with a technical fall.

Technical fall rule 5-11-4

ART. 4 . . . A technical fall occurs when a wrestler has earned a 15-point advantage over the opponent, however;

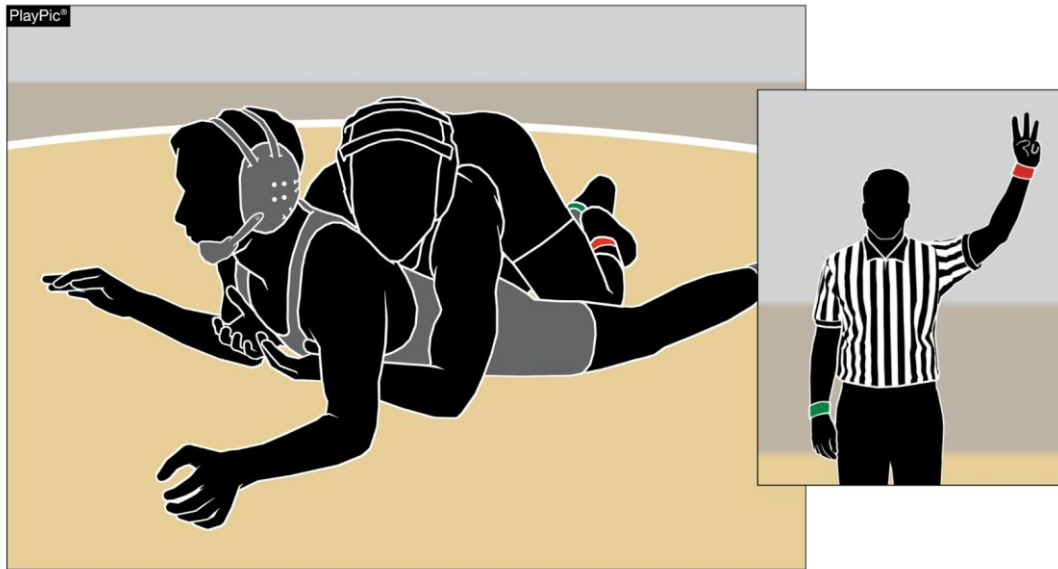

- a. If a takedown or reversal, straight to a near-fall criteria creates a 15-point advantage, the match shall continue until the near-fall ~~situation criteria~~ has concluded is no longer met. Conclusion of the near-fall criteria is immediate.
- b. Remains the same.

Signal chart

A signal has been added to the signal chart. Tapping the chest with hands flattened indicates a referee's time-out.

Takedown rule 9-1-2, summary of scoring

When a takedown is secured, the wrestler shall be awarded three points.

Rules & Mechanics

Dale Hanover

Control what you can control

Proper Officiating Mechanics

Dale Hanover

- **Signals - clear and complete for all rulings**
 - **Position - optimum location to see what is required to make ruling**
 - **Anticipate!**
 - **Anticipate the action. Always be in position for the action to come to you. Credibility of rulings increases from optimum, stationary positions**
 - **Don't anticipate the call, anticipate the move.**
 - **If you can “feel” what's coming and adjust your position or your visual focus on the right area, you'll see the action better and you'll have a much better opportunity to make a correct call.**
-

Masters & State Applications
